

Many IoT and Industry 4.0 solutions!

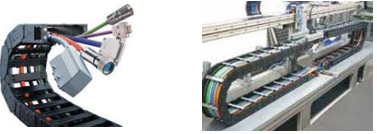

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

ABB VFDs, Motors & Components ABB is a world leader in VFDs and electrical components for many industries, including HVAC, Process, Heavy industrial, and many more!	
ABB Robots & Safety ABB is a global leader in robot solutions for many industries. ABB also has an extensive portfolio of safety solutions with Jokab Safety.	
B&R Automation: Global – Premier provider of total automation solutions. Products include HMI's, Motion controls, Servo and Stepper motors, PLC's, Industrial PC's, One programming environment, and much more.	
Boston Gear Boston Gear is a leading global supplier of quality power transmission products including, but not limited to food processing, packaging machinery, material handling and most others	
cpc CHIEFTEK PRECISION CO., LTD. Chieftek Precision Co Ltd. is devoted to R&D and manufacturing of high-quality linear motion components, with a focus on long term sustainability.	
copley controls Copley Controls is a worldwide leader in high performance motion solutions for OEMs in the semiconductor, life sciences, automated assembly/inspection and COTS military industries.	
COVAL vacuum managers Coval Coval's vision as Robot and Other vacuum managers is to be the world's leading solution provider of vacuum automation technology.	
dunkermotoren Dunkermotoren engineers and manufactures system solutions based on: Brushless DC servo motors/ brush-type DC motors, Integrated power and logic controllers, Planetary and worm gearboxes, encoders and brakes.	

MSI Products

Many IoT and Industry 4.0 solutions!

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

 GRACE Technologies Panel Interface connectors, electrical safety absence and presence of voltage indicators and predictive maintenance smart sensor devices.	
 HEIDENHAIN, for more than 125 years, has delivered the trusted precision measurement and motion control solutions.	
 IDEM with over 200 years' experience, IDEM has set a new industry standard with "Next Generation" of Machine Safety Interlocks and Devices.	
 Inductive Automation Who else can do a fully featured install in about a minute? Who else can run on practically any OS (including any version of Windows)? Who else developed an elegant system from the ground up with a holistic approach?	 SCADA, IIoT, OEE !
 KabelSchlepp They supply steel, high grade stainless steel and solid plastic cable carriers and plastic cable carriers with aluminum stays in standard sizes or tailor made to an individual customer's requirements in millimeter units.	
 Kollmorgen delivers the world's most capable servo and stepper motors, drives, automation platforms, AGV control systems and more. We offer collaborative expertise to reach your most ambitious goals, with the global presence to help bring your project to market with confidence.	
 Kuebler Group believes in strong customer focus, flexibility, and know-how all form the basis for our broad and innovative range of products. These include individually tailored product, sector solutions, and solutions for functional safety.	
 Kuebler Group In addition to hybrid step motors, our product line has also grown to encompass linear actuators, BLDC motors, Servo motors, Frameless motors and Slotless motors. Also, encoders, gearboxes, wire harness and the like.	
 LinMot is a global manufacturer of high-quality tubular style linear motors and linear motor systems and thus focuses on the development, production and distribution of linear direct drives.	

MSI Products

Many IoT and Industry 4.0 solutions!

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

LinTech Motion manufactures a wide range of linear and rotary mechanical positioning motion control products, from profile rail linear guides to round rail linear bearings. They offer linear components to completely pre-engineered positioning actuators, slides, stages and tables.

Lovato Electric designs and manufactures electrical devices for industrial applications with a range of over 10,000 products complying with the strictest requirements of international standards.

Marathon is dedicated to providing customers with quality products for targeted applications. They are composed of two strategic product lines: motors and generators.

Posital FRABA Offers the broadest line of encoders, absolute and incremental, anywhere supporting every type of fieldbus.

PULS makes the most efficient and compact DIN-rail power supplies in the world. This includes the new distributed technology FIEPOS.

R+W makes industrial zero/low backlash couplings for a large variety of applications.

ROLLON is a leading manufacturer of linear motion systems, guides and linear actuators. They have significant experience in applications across a variety of industries.

SensoPart concentrates on optoelectronic sensors and image-processing vision sensors for factory automation. They also offer inductive, capacitive and ultrasonic sensors with wide ranging applications.

SITI a manufacturer of gearboxes, geared motors and electro-mechanical drive technologies. Our wide range of products include worm, planetary, bevel-helical, helical gear, and mechanical variable speed drives

MSI Products

Many IoT and Industry 4.0 solutions!

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

Stober the servo solutions offer a great product mix of planetary gearheads, helical bevel gearboxes, hollow bore motors, and rack and pinion solutions. This diverse offering means we have a solution that will meet your needs.

TechnoSoft is committed to bringing compact, flexible, cost-effective solutions to a large variety of motion applications ranging from medical, textile, robotics to factory automation

Trio Motion Technology manufactures flexible and economical solutions for motion control applications, enabling control of complex high-speed automation and machine control in most industries throughout the world.

Unitronics focus is advanced technology PLC+HMI all-in-one solutions. They have a complete range of PLCs, powerful software, and outstanding support.

Weidmüller with products, solutions and services in the industrial environment of power, signal and data. They set standards in Industrial Connectivity.

Wenglor In addition to Photoelectric and Inductive Sensors, our core areas of expertise also include Ultrasonic Sensors, Fluid Sensors, 2D/3D Sensors, Vision Systems, Barcode Scanners as well as Safety Technology.

Wieland Electric GmbH celebrated its 100-year anniversary in 2010, is among the pioneers in electrical connection technology. They pride themselves on support and advice regarding machine Safety and Solutions.

WITTENSTEIN is committed to being a world class global partner for the customers of its intelligent mechatronic drive technology, servo systems and components.
