

Many IoT and Industry 4.0 solutions!

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

<p>ABB VFDs, Motors & Components</p> <p>ABB is a world leader in VFDs and electrical components for many industries, including HVAC, Process, Heavy industrial, and many more!</p>	
<p>ABB Robots & Safety</p> <p>ABB is a global leader in robot solutions for many industries. ABB also has an extensive portfolio of safety solutions with Jokab Safety.</p>	
<p><small>PERFECTION IN AUTOMATION A MEMBER OF THE ABB GROUP</small></p> <p>B&R Automation: Global – Premier provider of total automation solutions. Products include HMI's, Motion controls, Servo and Stepper motors, PLC's, Industrial PC's, One programming environment, and much more.</p>	
<p>BALLUFF <small>sensors worldwide</small></p> <p>Balluff GmbH: More than 40 years of experience in manufacturing sensor solutions for industry and factory automation.</p>	
<p>Boston Gear</p> <p>Boston Gear: is a leading global supplier of quality power transmission products including, but not limited to food processing, packaging machinery, material handling and most others</p>	
<p>cpc <small>CHIEFTEK PRECISION CO., LTD.</small></p> <p>Chieftek Precision Co Ltd. is devoted to R&D and manufacturing of high-quality linear motion components, with a focus on long term sustainability.</p>	
<p>copley controls</p> <p>Copley Controls is a worldwide leader in high performance motion solutions for OEMs in the semiconductor, life sciences, automated assembly/inspection and COTS military industries.</p>	
<p>DELTA</p> <p>Delta is the global leader in switching power supply solutions since 2002 and DC brushless fans since 2006.</p>	
<p>Dunkermotoren</p> <p>Dunkermotoren engineers and manufactures system solutions based on: Brushless DC servo motors/ brush-type DC motors, Integrated power and logic controllers, Planetary and worm gearboxes, Encoders and brakes.</p>	
<p>HEIDENHAIN</p> <p>HEIDENHAIN, for more than 125 years, has delivered the trusted precision measurement and motion control solutions.</p>	
<p>GRACE TECHNOLOGIES</p> <p>GRACE Technologies Panel Interface connectors, electrical safety absence and presence of voltage indicators and predictive maintenance smart sensor devices.</p>	

MSI Products

Many IoT and Industry 4.0 solutions!

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

 <p>IDEM with over 200 years' experience, IDEM has set a new industry standard with "Next Generation" of Machine Safety Interlocks and Devices.</p>	
 <p>Inductive Automation Who else can do a fully featured install in about a minute? Who else can run on practically any OS (including any version of Windows)? Who else developed an elegant system from the ground up with a holistic approach.</p>	 <p>SCADA, IIoT, OEE !</p>
 <p>Intercontec connectors stand for proprietary design, new developments instead of copies and great passion for everything that pushes technical boundaries.</p>	
 <p>KabelSchlepp They supply steel, high grade stainless steel and solid plastic cable carriers and plastic cable carriers with aluminum stays in standard sizes or tailor made to an individual customer's requirements in millimeter units.</p>	
 <p>Kuebler Group believes in strong customer focus, flexibility, and know-how all form the basis for our broad and innovative range of products. These include individually tailored product, sector solutions, and solutions for Functional Safety.</p>	
 <p>LinMot is a global manufacturer of high quality tubular style linear motors and linear motor systems and thus focuses on the development, production and distribution of linear direct drives.</p>	
 <p>LinTech Motion manufactures a wide range of linear and rotary mechanical positioning motion control products, from profile rail linear guides to round rail linear bearings. They offer linear components to completely pre-engineered positioning actuators, slides, stages and tables.</p>	
 <p>Lovato Electric designs and manufactures electrical devices for industrial applications with a range of over 10,000 products complying with the strictest requirements of international standards.</p>	
 <p>Marathon is dedicated to providing customers with quality products for targeted applications. They are composed of two strategic product lines: motors and generators.</p>	
 <p>Optex Inc has established a worldwide reputation for quality, innovation, and technical excellence.</p>	
 <p>Posital FRABA Offers the broadest line of encoders, absolute and incremental, anywhere supporting every type of Fieldbus.</p>	

MSI Products

Many IoT and Industry 4.0 solutions!

MSI's #1 priority to "exceed customer expectations" ... starts with a #1 Product Line

<p align="center">PULS</p> <p>PULS makes the most efficient and compact DIN-rail power supplies in the world.</p>	
<p align="center">R+W</p> <p>R+W makes industrial zero/low backlash couplings for a large variety of applications.</p>	
<p align="center">ROLLON <i>Linear Evolution</i></p> <p>ROLLON is a leading manufacturer of linear motion systems, guides and linear actuators. They have significant experience in applications across a variety of industries.</p>	
<p align="center">SENSOPART SENSORS FOR AUTOMATION</p> <p>SensoPart concentrates on optoelectronic sensors and image-processing vision sensors for factory automation. They also offer inductive, capacitive and ultrasonic sensors with wide ranging applications.</p>	
<p align="center">STOBER</p> <p>Stober the servo solutions offer a great product mix of planetary gearheads, helical bevel gearboxes, hollow bore motors, and rack and pinion solutions. This diverse offering means we have a solution that will meet your needs.</p>	
<p align="center">TECHNO SOFT</p> <p>TechnoSoft is committed to bringing compact, flexible, cost-effective solutions to a large variety of motion applications ranging from medical, textile, robotics to factory automation</p>	
<p align="center">TRIO MOTION TECHNOLOGY</p> <p>Trio Motion Technology manufactures flexible and economical solutions for motion control applications, enabling control of complex high-speed automation and machine control in most industries throughout the world.</p>	
<p align="center">UNITRONICS</p> <p>Unitronics focus is advanced technology PLC+HMI all-in-one solutions. They have a complete range of PLCs, powerful software, and outstanding support.</p>	
<p align="center">Weidmüller</p> <p>Weidmüller with products, solutions and services in the industrial environment of power, signal and data. They set standards in Industrial Connectivity.</p>	
<p align="center">wenglor the innovative family</p> <p>Wenglor In addition to Photoelectric and Inductive Sensors, our core areas of expertise also include Ultrasonic Sensors, Fluid Sensors, 2D/3D Sensors, Vision Systems, Barcode Scanners as well as Safety Technology.</p>	
<p align="center">wieland</p> <p>Wieland Electric GmbH celebrated its 100-year anniversary in 2010, is among the pioneers in electrical connection technology. They pride themselves on support and advice regarding machine Safety and Solutions.</p>	
<p align="center">WITTENSTEIN</p> <p>WITTENSTEIN is committed to being a world class global partner for the customers of its intelligent mechatronic drive technology, servo systems and components.</p>
